Summary: Financial and operations professional with experience supporting complex, high-visibility initiatives in professional sports, healthcare, and government. Proven track record in managing technical readiness for global events and coordinating cross-functional teams in high-pressure environments.

Job Experience:

FIFA World Cup 2026, Seattle, WA April 2026 – July 2026

Position: Electronic Access Control Specialist

- Operational Readiness: Lead the delivery and live operation of access control systems (turnstiles, handhelds, and ADA units) for a high-capacity World Cup stadium.
- Live Monitoring: Monitor real-time data flows and event logs during matches to maintain system stability and resolve technical escalations instantly.
- Leadership: Deliver technical training to operational staff, volunteers, and security partners on access control procedures and ticketing workflows.

UW Medicine, Seattle, WA January 2023 – September 2025

Position: Senior Financial Analyst – Financial Reporting

- Data Analysis & Reporting: Developed and presented executive level dashboards, presentations and financial reports for executives, state officials, and public health stakeholders.
- Systems Implementation: Served as a key lead in the migration of Workday financial modules, transitioning 50+ years of legacy data to a modern system. Additionally, led the implementation of government standards to track software assets valued over $25M across multiple departments.
- Operation Support: Managed a high-volume internal finance ticketing system, serving as the primary coordinator for issue intake, prioritization, resolution, and escalation across departments. Utilized Excel-based trackers, dashboards, and ticketing tools to monitor deadlines, assignments, and issue resolution.
- Program Tracking: Monitored expenditure tracking for state-appropriated programs, ensuring compliance with budgetary limits and legislative eligibility requirements.

RSM US LLP, Seattle, WA October 2019 - October 2022

Position: Senior Associate - Audit

- Project Management: Directed end-to-end audits for private clients with revenues up to $500M+, managing multinational teams and competing deadlines under budget.
- System Integrity: Evaluated internal IT controls and financial statements to ensure GAAP compliance and operational risk mitigation across retail and manufacturing sectors.
- Leadership: Supervised and mentored teams of 4 junior associates, acting as the primary liaison for complex client engagements.

Education and Skills

- **Education**: Masters of Professional Accountancy; Bachelor of Science in Accounting; Bachelor of Arts in Political Science – Montana State University. Studied abroad at University of Western Australia.
